The Miiluma Spa

Imagine a space where contemporary Mexico, and the practices and influences of spas around the world emerge to welcome our guests to a secret place within themselves. Walk in an atmosphere of sensorial happiness. Feel natural elements like the air, the water, the sun, the plants, the mud, and the flowers, and experience the soothing sounds and colors. Live for a moment in a return to our common matrix: nature. The World Class Miiluma Spa draws from nature as inspiration for its décor and services. Traditional Mexican healing techniques are employed in both indoor treatment rooms and an outdoor terrace with four (4) aroma-therapy infused cabins. Before indulging in Spa treatments, guests can visit the thermal/hydrotherapy suite (composed of gender-specific sauna, steam room, cold plunge, and whirlpool facilities), or the co-ed relaxation lounge. Signature treatments integrate flavorful elements of the surrounding landscape. The 80-minute Coconut Experience involves an exfoliating full-body application of the titular fruit, followed by a hydrotherapy bath with coconut extracts and flower petals. Additional specialty offerings include: Exotic Natural Avocado Yogurt Wrap, Exotic Chocolate Wrap, Rain Shower Body Scrub, and Prestige Moisturizing Facial. Skin care services utilize clinically formulated Phytomer Products. The Spa's Life Fitness gymnasium features a full complement of weight-training and cardio equipment. After a workout and/or pampering treatments, Spa-goers can do laps or relax under a waterfall at the multi-leveled infinity pool. Other offerings include Tai Chi, Meditation & Yoga. Any experience at the Miiluma Spa will permit your body and soul to unite in perfect balance.
